

Registered Nurse – Mana Kidz School Based Rheumatic Fever Programme

The Mana Kidz goal is to improve the health of our children and reduce ethnic inequalities in health outcomes for certain targeted preventable conditions and reduce the rates of hospitalisation in primary school aged children for these health conditions (rheumatic fever and skin infections).

Mana Kidz is a Registered Nurse (RN) led, primary school-based health service that enables RNs to address a number of important health issues. The RNs work alongside Whānau Support Workers (WSW) and closely with the school communities to maximise the opportunity for assessment and treatment, and to deliver broad health promotion/education messages. A whānau centric approach is embedded in this programme in order to improve the general health and wellbeing of both children and their whānau.

Requirements for applicants:

- A registered nurse with experience in Child health and current knowledge of primary healthcare setting, population health and whānau ora experience.
- A registered nurse working towards a post graduate study in Child health / Youth health.
- Be legally eligible to work in New Zealand.
- A current New Zealand practicing certificate.
- Be committed to working as part of a health team of registered nurses, whānau support workers, and management.
- A full current, clean NZ Drivers licence.
- Proficient with Medtech 32 and Microsoft office packages.
- Positive attitude and excellent communication and personal skills.

Benefits:

- Good remuneration offered to the right person
- Professional development
- Multicultural team approach

For a detailed job description please send your cover letter and CV via email to irene.harrison@southseas.org.nz

The closing date for applications is 1 October 2018.
